

Wzór	A [mm]	D [mm]
 <p>The drawing illustrates a wire mesh structure. It shows a grid of three vertical and three horizontal wires. Dimension 'A' is indicated as the distance between adjacent vertical wires, and dimension 'D' is the diameter of the vertical wires. To the right, a vertical cross-section shows the mesh with three horizontal wires. Below the main grid, a horizontal cross-section shows three vertical wires. The wires are depicted with a wavy profile, suggesting a specific wire type.</p>	<p>5 do 200</p>	<p>1,0 do 4,5</p>
